WARNINGS Read Before Using Your Sega Dreamcast Video Game System

CAUTION

Anyone who uses the Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

Space Channel 5 is a memory card compatible game (Visual Memory Unit [VMU] sold separately). With this game, 5 blocks are needed to save game files. When saving or loading game files, never turn the Dreamcast power OFF or remove the memory card, controller or other peripheral devices.

It's the 25th century, and planet Earth is in a state of crisis.

An alien race, the Morolians, have launched an invasion against Earth, randomly shooting innocent victims with a mysterious ray gun. The effect of the ray is rather unusual, as it forces people to dance uncontrollably, and enslaves them to alien rhythms.

Of course, their attack has caused a widespread panic.

The first station to grab the scoop is a little-watched space broadcaster, "Space Channel 5." Sensing a golden opportunity to boost ratings, the director, Fuse, has sent the only reporter left who hasn't been captured, a reporter named Ulala.

The broadcast begins at the location of the first incident - Spaceport 9.

Ulala must copy the Morolians' dance steps - Up! Down! Right! Left! Shoot! Shoot! Shoot!

Ulala is the only hope we have to defeat the Morolians and free the human victims. The future of the Earth is in her hands!

**Reporter ULALA**

Birthdate: May 30th, 2477

Sign: Gemini

Ulala, 22, has been working at Space Channel 5 as a reporter for the last two years. The capture of the other reporters covering the invasion has seen Ulala promoted to the investigative reporting team. This is her big chance to prove her reporting skills to the world!

**Alien MOROLIANS**

The alien race who suddenly invaded Earth, the Morolians are an odd but undeniably cute bunch. Their ray guns turn innocent humans into hypnotized go-go dancers! They are very curious and possess a high level of intelligence. Working together in groups, these are very mischievous and naughty little creatures.

Director FUSE

Birthdate: September 21st, 2464

Sign: Virgo

The 35 year-old director of the investigative reporting team, Fuse is normally a laid-back kind of guy. However, there has been a lot of pressure from his superiors, and he's been stressed out lately about the show's ratings. This anxiety has shortened his temper considerably, which probably won't help morale among his staff.

Boss MOROLINA

Designed to attack luxury passenger ships, this fiendish Boss character has captured a group of elementary school students. Be careful not to hit the children while shooting!

**Reporter PUDDING**

Birthdate: September 5th, 2480

Sign: Virgo

Pudding, a 19 year-old former teen idol, is a reporter for Channel 42. She has many adoring fans, yet harbors a strong jealousy towards Ulala, who seems to have appeared out of nowhere to steal her limelight.

Space Channel 5 is a 1 Player game. Connect a Dreamcast Controller to Control Port A before turning the power ON. To return to the Title Screen at any time during game play, simultaneously press and hold the **A**, **B**, **X**, **Y** and Start Buttons on the Dreamcast Controller. Never touch the Analog Thumb Pad or Triggers **L**/**R** while turning the Dreamcast power ON. Doing so may disrupt the controller initialization procedure and result in malfunction.
